

# Find / Findindex

```
function findUserByUsername(usersArray, username) {  
  return usersArray.find(function(user){  
    return user.username === username;  
  })  
}
```

```
function removeUser(usersArray, username) {  
  let foundIndex = usersArray.findIndex(function(user){  
    return user.username === username;  
  })  
  if(foundIndex === -1) return;  
  
  return usersArray.splice(foundIndex,1)[0];  
}
```
